

10 March 2015 SSRI had the pleasure of hosting senior students from Turrumurra High School, who visited as part of [2realise](#)'s [industry bites](#) program. With a view to inspiring the students towards a career in biotechnology, we gave them a tour of our facilities and explained what we do. We also took the opportunity to demonstrate some of our unique technologies to them.

The day was enjoyable for staff and students alike, the students leaving us with an increased understanding of our very specialised industry. Read more from the students' perspectives [here](#).
