

Troy Birch has been able to double the mileage of his donations to SSRI, thanks to [BHP Billiton](#). Troy, an employee of BHP Billiton, applied to his employer for funding to match his donations under BHP Billiton's [Matched Giving Program](#). Under this scheme, BHP Billiton offers to match community contributions made by their employees, with the aim of supporting those not-for-profit community organisations their employees support.

SSRI gratefully accepts this further fruit of Troy's efforts and thanks BHP Billiton for their generosity in supporting the effort to fight meningococcal in our community and the world.
