

At SSRI we have a philosophy of sharing our successes and achievements with the community, giving recognition where recognition is due. We realise that for many of our supporters it is not possible to be intimately involved in the day-to-day progress we are making. In the spirit of keeping them, and anyone else who may be interested, up to date with the noteworthy events and milestones in our growth and development, this page gives an idea of the path that has brought us to where we stand today.
