

## Supporting the Stephen Sanig Research Institute...

The Institute is an independent research organisation. Currently, the Institute receives no government funds. However we rely on public support to fund our research programs in the areas of meningococcal, cancer and autoimmune diseases.

Gifts of cash are the most direct way to support the mission and goal of SSRI. Your gift will help the work of SSRI's research team, helping them develop new approaches and therapies for a range of diseases.

The Institute is registered with the Australian Taxation Office as a Deductible Gift Recipient, and all donations of \$2 or more are tax-deductible.

To make a donation, please [contact us](#) by phone or [email](#).

Your donation will be very much appreciated.
